

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: University Preparation Charter School at CSU Channel Islands

CDS Code: 56725536120620

School Year: 2025-26

LEA contact information:

Charmon Evans

Executive Director

CEvans@pleasantvalleysd.org

805.482.4608

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

This chart shows the total general purpose revenue University Preparation Charter School at CSU Channel Islands expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for University Preparation Charter School at CSU Channel Islands is \$10,710,809, of which \$8,260,515 is Local Control Funding Formula (LCFF), \$1,963,735 is other state funds, \$152,450 is local funds, and \$334,109 is federal funds. Of the \$8,260,515 in LCFF Funds, \$701,784 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much University Preparation Charter School at CSU Channel Islands plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: University Preparation Charter School at CSU Channel Islands plans to spend \$10,651,709 for the 2025-26 school year. Of that amount, \$2,089,024 is tied to actions/services in the LCAP and \$8,562,685 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

General fund expenditures not included in the LCAP are primarily personnel, classroom and office supplies, facilities costs, oversight to authorizing district, and custodial and maintenance supplies.

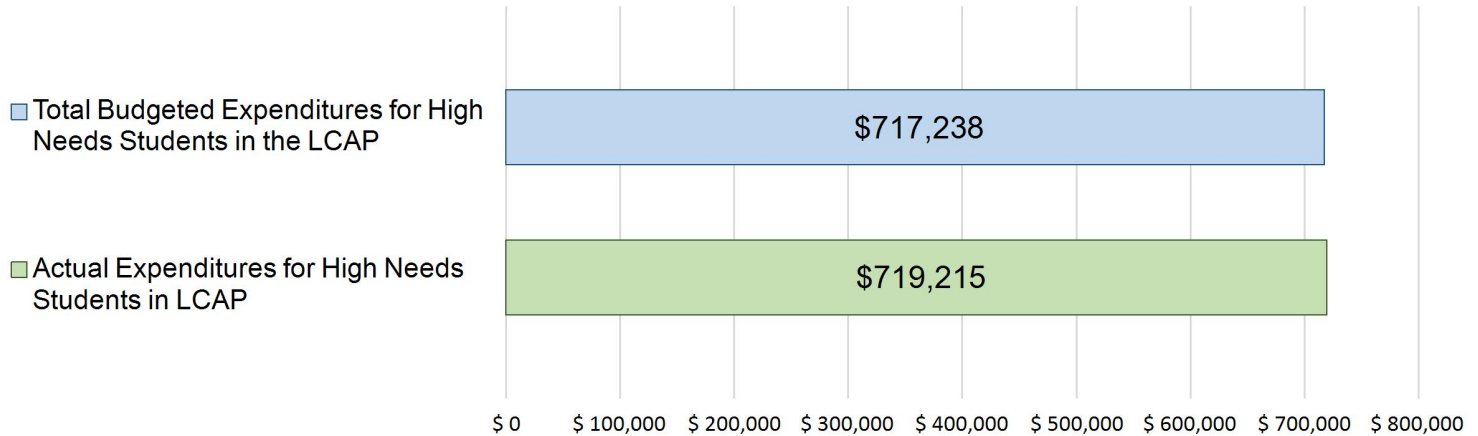

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, University Preparation Charter School at CSU Channel Islands is projecting it will receive \$701,784 based on the enrollment of foster youth, English learner, and low-income students. University Preparation Charter School at CSU Channel Islands must describe how it intends to increase or improve services for high needs students in the LCAP. University Preparation Charter School at CSU Channel Islands plans to spend \$707,308 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

Prior Year Expenditures: Increased or Improved Services for High Needs Students

This chart compares what University Preparation Charter School at CSU Channel Islands budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what University Preparation Charter School at CSU Channel Islands estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, University Preparation Charter School at CSU Channel Islands's LCAP budgeted \$717,238 for planned actions to increase or improve services for high needs students. University Preparation Charter School at CSU Channel Islands actually spent \$719,215 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

University Preparation Charter School at CSU Channel Islands celebrates 23 years of excellence in education in the Ventura County area. In 2002, UPCS opened its doors to approximately 350 kindergarten through fifth-grade students. As we conclude the 2024-2025 school year, we have grown to serve approximately 730 transitional kindergarten through eighth-grade students and over 85 employees. The UPS petition, which the Pleasant Valley School District originally approved on October 11, 2001, and was most recently renewed in December 2020 for another five-year cycle, 2021-2026. Due to COVID-19, the state granted UPCS an additional one-year extension for renewal, which will now take place in 2027. UPCS functions under the governance structure and direction of the University Preparation School at CSU Channel Islands Board of Directors. The 501 (c) (3), non-profit public benefit corporation will maintain the name University Preparation School at CSU Channel Islands. The Board of Directors, UPCS faculty and staff, UPCS community members, and CSUCI faculty are partners in the implementation of the University Preparation Charter School at CSUCI. The UPS Board of Directors is the governing body responsible for establishing policy and overseeing ongoing evaluation, as outlined in the charter legislation and the UPCS charter petition, regarding personnel, instructional programs, budget, student welfare, transportation, dispute resolution, facility oversight, public relations, and community outreach.

UPCS is dedicated to serving a diverse community, and to that end, the school works to attract a wide variety of families from varying cultural backgrounds, languages, and socio-economic status. UPCS believes in the importance of children, from all kinds of backgrounds, coming together to learn and grow together. The school has two strands: Dual Immersion, which is 50/50 Spanish and English, and Language Enrichment, where children receive 1 to 1.5 hours of Spanish instruction per week as an enrichment. UPCS is dedicated to educating the whole child and offers all children a well-rounded education that includes music, art, engineering, technology, and theater arts. Students loop

with teachers for two years in K-5, fostering close relationships between school and home. UPCS nurtures a community with families, teachers, staff, and university partners to create a welcoming environment. The TK-8 program allows for cross-grade level collaborations that benefit students and provides a sense of community and family. UPCS has minimal staff and student attrition. Stable staffing and student enrollment strengthen long-term relationships with students and families.

Mission Statement

University Preparation Charter School at CSU Channel Islands is a collaborative community of innovative learners who seek out challenges and persevere toward individual and shared goals. We provide multiple opportunities for students to thrive in a diverse and compassionate learning environment.

Guiding Principles:

The Students... create a positive community environment by exhibiting ownership of their education through self-discipline and high expectations.

The Curriculum... is standards-based, fosters critical thinking skills, and utilizes best educational practices. It includes instruction in core subjects (Language Arts, Math, Science, and Social Studies) as well as Spanish, technology, and the arts.

The Professional Community... is dedicated to participating in ongoing professional development that includes leadership capacity building, school-wide collaboration and articulation, communication of "best practices", and team building experiences.

The Cooperating Community... flourishes as a result of collaboration with CSUCI faculty and students, and because of strong relationships with involved and informed parents, with area districts, and with businesses that support the educational program.

Unduplicated Pupil Count: 355 Percentage:47.7% (UPP):

Demographics as of Census Day, October 2, 2024

Total Students: 743

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

UPDATE FOR 25/26 LCAP (YEAR 2):

2024 Dashboard Performance based on 23-24 Data and does not reflect the work we have done in this area for the 2024-2025 school year.

1) Areas/student groups in which we received the lowest performance level on one or more state indicators on the 2024 Dashboard:

Academic Indicator - English Learner Progress Indicator - (Red - "Very Low")

- Declined Significantly (37.2%)

We do not have official summative data for the 2024-2025 ELPAC.

The reclassification data available in June 2025:

10% EL students TK – 8 reclassified

10% EL students 3 - 8 reclassified

43% of Long-term English Learners were reclassified in 2024-2025

Academic Indicator - Chronic Absenteeism Indicator (Overall NOT in lowest performance, but 1 subgroup is in lowest range) We actually improved overall by 5.8% from the 22-23 school year.

- Socioeconomically Disadvantaged (22.92% chronically absent, decrease of 9.86% from 22-23) The reason that it is still in "Very High - YELLOW" is because we are over 20.1%.

Data as of June 2025

Overall Chronic Absenteeism percentage is 15.17% which is a 1.41% improvement from 2023-2024.

- Socioeconomically Disadvantaged (22.15% chronically absent, decrease of .77%)

Attendance remains a focus goal for the 2024-2025 and 2025-2026 school years. We are developing a comprehensive multi-tiered system of support for attendance.

As you can see below, UPCS showed significant improvement on the 24-25 Dashboard as compared to the 23-24 Dashboard.

The latest state testing data available is the 2024 CAASPP:

2024 State Testing Data:

Below are the actuals from 23-24 since they were not available at the time the LCAP was written last year:

% of UPCS students are making progress toward English Language Proficiency

18.8% grew 1 level

16.3% maintained 4

31.3% maintained 2-3 level

33.8% decreased level

66.4% of EL students maintained or grew a level

The reclassification data available in June 2025:

10% EL students TK – 8 reclassified

10% EL students 3 - 8 reclassified

43% of Long-term English Learners were reclassified in 2024-2025

Learning Recovery Emergency Block Grant (LREBG) Funds:

2025-2026 LEARNING RECOVERY EMERGENCY BLOCK GRANT (LREBG) REQUIRED FOR 2025-26 LCAP

California Education Code 52064.4 requires that an LEA (district) that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA.

UPCS conducted a needs assessment to identify key areas for improvement, drawing on the 2024 California Dashboard data. The analysis was further enriched by input from education partners and insights from local assessment data. The findings informed the selection of the following strategic actions, which LREBG funded.

- Goal 1 - Student Achievement, Actions 1.1 and 1.3 - Instruction and materials to support intervention/differentiation in Tier I and Tier II instructional settings. Provide students with academic deficiencies in the areas of reading foundational skills, fluency, and comprehension, and math with targeted instruction. Metric(s) to monitor effectiveness: 1.1, 1.2, 1.3, 1.4
- Goal 2 - Social Emotional/Behavioral Support, Actions 2.1, 2.4. 2.5 - Provide social emotional support to help ensure the emotional well-being of students by providing access to school counselors, behavior systems that support teachers, students, and families to address the root causes of behavior, and apply research-supported strategies. Metric(s) to monitor effectiveness: 1.5, 2.1, 2.2, 3.1
- Goal 5 - Focus on improving attendance. Actions 5.1 and 5.2 - Parent education and development of an MTSS structure for attendance. Metric(s) to monitor effectiveness: 5.1, 5.2

Rationale for ongoing support of the above actions stems from the ongoing UPCS Priorities of Academic Achievement, Positive Culture and Climate, Family Engagement, and Constructive Learning Environments. These Priorities frame the 2025-26 LCAP Goals and Actions. Ongoing student success is the product of the systematic development, implementation and sustainment of Multi-Tiered Systems of Support (MTSS) resources.

FROM THE 24/25 LCAP (YEAR 1):

Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 amended CA Education Code to require revisions of the LCAP template and instructions. Significant changes to this section include the requirement to identify and address key performance outcomes as they relate to UPCS's 2023 CA School Dashboard results. These performance outcomes include: 1) Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard. 2) Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard. 3) Any student group in a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

The 2023 CA School Dashboard results associated with these performance outcomes are provided below. This is followed by a reflection on the results and information regarding how UPCS is planning to address the identified needs of our students throughout the three-year LCAP Cycle. Please note that the terminology associated with each student group is that of the state and does not reflect the preferred terminology used within UPCS.

1) Areas/student groups in which we received lowest performance level on one or more state indicators on the 2023 Dashboard:

Academic Indicator - ELA (Orange - "Very Low")

- Special Education (76.2 points below standard, Increased 5.8 points)

*Addressed in LCAP Goal 4

Academic Indicator - Math (Red - "Very Low")

- Special Education (99.9 points below standard, Maintained)

*Addressed in LCAP Goal 4

Chronic Absenteeism Indicator (Red - "High" to "Very High")

- All Students (22.4% chronically absent, Increased 1.5%)
- English Learners (21.4% chronically absent, Increased 1.9%)
- Socioeconomically Disadvantaged (31.9% chronically absent, Increased 5.8%)
- Students with Disabilities (25% chronically absent, Increased 7.3%)
- Hispanic (23.5% chronically absent, Increased .2%)
- White (21.8% chronically absent, Increased 6.7%)

*Addressed in LCAP Goal 5

Suspension Rate Indicator (Red/Orange - "High" to "Very High")

- All Students (3.2% suspension rate, Increased 1.5%)
- English Learners (2.4% suspension rate, Increased .6%)
- Socioeconomically Disadvantaged (4.1% suspension rate, Increased Significantly 3%)
- Students with Disabilities (5.2% suspension rate, Increased 5.2%)
- Hispanic (3.3% suspension rate, Increased 1.7%)

*Addressed in LCAP Goal 2

State testing for 23-24 was not available at the time of this report but below is a summary of the 2022-2023 results:

English Language Arts

School-wide met/exceed – 52.41%

3rd met/exceed – 45.68%

English Learner Progress for 2024:

The summative assessments are not all completed but as of January 2024:

10% EL students TK – 8 reclassified

16% EL students 3 - 8 reclassified

41% of Long-term English Learners were reclassified in 2023-2024

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Not applicable

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Not applicable

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Not applicable

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Not applicable

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Students	<p>Annual Survey - annually, all 3-8 grade students take a culture and climate survey that covers the following topics: Engagement, Academic Challenge, Culture, Belonging & Peer Collaboration, Relationships, Obstacles to Learning, Civic Readiness, Emotional & Mental Health, School Safety, Student Voice & Leadership.</p>
Administration/Cabinet	<p>The cabinet team meets once a week to discuss school goals, actions, and review success indicators and progress toward these goals. During these meetings, we regularly evaluate the effectiveness of the actions being taken and pivot as necessary. This team is involved in planning and executing the other engagement opportunities provided to educational partners. The administration team also meets weekly. Administration has a comprehensive view of all programs, services, stakeholder groups, and overall effectiveness.</p>
Ventura County Special Education Local Plan Area (SELPA)	<p>December 12, 2024 - Inclusive Practices February 18, 2025 - Importance of quality sped data</p>

2025-2026 - Influences from educational partners. These are some of the ideas and thoughts generated through our educational partner collaborations, surveys, and meetings.

1) Teaching staff input - Goal 1 - cross-grade vertical alignment, tiered professional development, and coaching opportunities based on need and years of experience. Goal 3 - Collaboration logs/ reflections for teacher planning time, student-led components in family engagement, strengthened feedback loops in Leadership

2) Family input - Goal 2 - SEL parent workshops differentiated by age, coordinated with other school events like performances. Student sessions on body image and confidence and more on screen safety. Goal 3 - Lunch enrichment clubs or opportunities beyond regular recess activities. Goal 5 - There was excitement over the opportunity to make up for absences via Saturday School.

INPUT 2024-2027

As was stated above, the district solicited input on the development of the new LCAP goals, actions, metrics and investments through a robust set of multiple engagements with various committees and groups, as well as public comments on the posted draft LCAP. These community inputs were carefully reviewed and considered as the new Local Control and Accountability Plan (LCAP) was drafted.

Some of the key themes that emerged from the survey responses as well as in the meetings with educational partners that influenced the creation of new, improved or increased actions include the following:

1) Increase/maintain opportunities and resources to support differentiation both in class and in pull-out instruction. This is evident in LCAP Goal 1, specifically in professional learning related to class Tier 1 and Tier 2 instructional practices, with small-group instruction being a key component. This professional learning will occur during the site staff development, teacher collaboration time (ACTT), and workshops. Paraprofessionals will also receive training as needed. Additionally, an instructional coach will support teachers in applying these learnings to their classroom practice. (Actions 1.1, 1.2, 1.4)

2) Support work on social-emotional and behavioral health. Over the last several years we have invested a lot in the development of a comprehensive social-emotional learning program. Teachers, parents, and students all expressed the importance of maintaining our school counselors, calming corners, and other social-emotional learning (SEL) supports. We also heard the desire to grow our mentor program that provides students with a check-in/check-out system of support. We heard a lot of feedback from parents and staff regarding the need to better understand and address student behaviors. Parents also requested parent education around social-emotional needs and challenging behaviors. (Action 2.1, 2.2, 2.3, 2.4)

3) Improved school culture and interconnectedness. Parents stated that they would like more opportunities to learn about ways they can support their child's academic development at home. They also expressed that the school holds more "family" nights that might be centered on learning or fun. Teachers expressed the successes accomplished by the work of the school leadership team. Parents and students appreciate the broad course of study provided by the enrichment program. Parents and students expressed their desire to see the after-school program continue to grow with opportunities for after-school enrichment and intervention. (Action 3.1, 3.2, 3.4, 3.5)

4) Special Education - Through SELPA consultation, a review of the data, and input from families, teachers, and administration, a decision was made to make the academic growth of students in special education a focus goal for this LCAP cycle. Special education students were the only subgroup to score in the red for any of the academic indicators, specifically in the area of math. The actions will support sourcing new math materials for students to use in the resource classrooms and providing professional development for general education teachers to better serve the needs of students with IEPs in their classrooms. (Action 4.1, 4.2)

5) Attendance - Families, teachers, and administrators all expressed a desire to improve attendance. While it did improve in the 23-24 school year, it is still a problem area. The ELAC committee presented several possible opportunities to support the program. Teachers and administrators see the need for a structured multi-tiered system of support (MTSS) similar to what we have for academics and SEL/Behavior. (Action 5.1, 5.2)

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	To ensure excellency of its diverse student population, UPCS will provide all students with an education based on state standards to advance towards proficiency and beyond in literacy, mathematics, and other subject areas with an emphasis on narrowing the gap for subgroups. UPCS will achieve this through innovative methods, biliteracy and socio-cultural competency to build a solid foundation for college and/or career, and positive citizenship.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
 Priority 2: State Standards (Conditions of Learning)
 Priority 4: Pupil Achievement (Pupil Outcomes)
 Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Although academic growth is evident in recent state and local assessment data, further advancement toward proficiency is still needed. Based on input from educational partners, teachers, students, staff and advisory committees, academic excellence is a priority. According to CAASPP results for the 2022/23 school year, 52% of UPCS students were proficient in ELA and 39% in Mathematics. Similar data with a slight decline was reflected in the Fall 2023 local assessment results, with 44% proficiency in ELA and 35% in Mathematics.

To increase proficiency, we need a continued focus on improving the school's multi-tiered system of support (MTSS) to ensure student groups, like students with disabilities, low socio-economic status and English learners achieve equity in outcomes. This includes targeted training to improve Tier 1 instructional practices and supports for subgroups as well as Tier 2 and 3.

Measuring and Reporting Results

One is appropriately assigned and the other is on a TPSL.</p> <p>7 Fulltime Intervention/Support Teachers 1.64 FTE Enrichment Teachers (10 teachers total but very part time) 1 of the enrichment teachers does not have an English Learner Authorizaiton but falls under the Charter exception this teacher also comes up as a mis-assignment for the same reason. This teacher has until 2025 to complete a teacher credentialing program.</p>	<p>Missassigned: 3 1 teacher that falls under the Charter exception. 2 teachers who needed to complete their English Learner Authorization. They both completed it this school year.</p>		properly assigned with either a multiple subject, single subject, local authorization, core methodology, and all teachers have English Learner authorizations.	

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Action 1.1 aimed to provide targeted Tier 2 and Tier 3 interventions, as well as small group extension opportunities, through differentiated instruction. These services were delivered via multiple formats: within the general education classroom, through pull-out supports, and during extended learning opportunities (intersession and summer). Instructional practices and student progress were monitored through the MTSS process to ensure timely and effective support. Implementation was closely aligned with the original plan, with interventions and enrichment opportunities occurring across multiple settings. The MTSS framework helped guide instructional decisions and progress monitoring; however, balancing staffing and scheduling posed challenges at specific grade levels, which impacted the consistency and reach of services.

1.2 -This action focused on providing supplemental materials and services specifically designed to support English Learners, with targeted attention to Long-Term English Learners (LTELs) and students at risk of becoming LTELs. Planned services included before- and after-school interventions, after-school access for students without home connectivity, EL intersession academic camps, and the continued use of ELlevation to support language development and teacher collaboration.

Targeted academic support was provided during scheduled breaks through EL camps focused on foundational literacy, vocabulary development, and integrated language and content instruction. After school, access to devices and the internet was provided to English Learners who lacked these resources at home. This allowed students to engage with grade-level math content, with support aligned to both academic language and concept development. ELlevation was used inconsistently across the school to help teachers plan differentiated instruction, monitor language growth, and integrate language goals into content instruction. Teachers reported increased awareness of EL needs and greater collaboration through data sharing and strategy planning.

While before- and after-school intervention programs were planned to serve LTELs and at-risk ELs, student attendance was lower than anticipated, and this limited the reach and impact of these extended learning opportunities. Factors contributing to low attendance included transportation challenges, family obligations, and a lack of student interest or engagement in extended-hour programming. Low attendance at extended day programs limited their effectiveness, despite being well-designed to target LTEL needs. Technology equity, though improved, still posed a challenge in ensuring consistent at-home engagement with supplemental tools like ST Math. Staffing for supplemental programs—especially outside of contracted hours—was occasionally challenging, affecting the frequency and consistency of intervention sessions. Students who participated in EL intersession camps and received support demonstrated improvement in engagement and language development, particularly in structured environments with small-group instruction.

1.3 is focused on enhancing Tier I instruction through the use of high-quality programs, materials, and technology to support universal access and differentiated learning. The goal was to ensure all students had access to tools that met their learning needs and promoted academic growth across content areas. The school successfully implemented a broad range of curriculum and tools, including Open Up Math, Desmos, Benchmark, UFLI, ST Math, and RAZ, ensuring alignment with grade-level standards and supporting differentiated instruction. 1:1 device access was maintained, allowing students equitable access to digital platforms at school and, where possible, at home. Supplemental programs, such as ST Math and RAZ, were widely used to reinforce skill development, particularly in foundational literacy and conceptual math. Newer programs, such as UFLI for foundational reading, were integrated into instruction and received positive feedback for helping to

target early literacy needs. While the plan included widespread and consistent use of all platforms, usage varied across grade levels and classrooms, especially for supplemental digital tools. This variance was largely due to differences in teacher capacity, training gaps, or varying levels of comfort with specific platforms. Some platforms (e.g., ST Math) were underutilized by students with limited internet access at home, despite having device availability.

1.4 Professional development (PD) efforts were focused on improving Tier 1 and Tier 2 instruction, with the goal of increasing differentiation and responsiveness to student needs identified through schoolwide and classroom-level data. Professional development (PD) was offered through a variety of delivery models, including professional growth partner coaching cycles, site-based workshops, external consultants, conference participation, and teacher collaboration and planning time. Teachers received professional development (PD) aligned with key instructional initiatives, including Open Up Math, GLAD strategies for multilingual learners, and UFLI for foundational reading. There was a noticeable increase in the use of data-driven practices to identify students who require Tier 2 intervention and to adapt core instruction accordingly. While the plan included widespread access to conferences and consultants, time constraints, staffing coverage, and scheduling limitations made the full implementation of external professional development more difficult. Participation in job-embedded PD varied across grade levels. Teachers expressed a need for more sustained follow-up and planning time to fully integrate new learning into their instruction. Despite these challenges, the majority of professional development (PD) was implemented as planned, and data trends suggest that it contributed meaningfully to growth in key student groups and across content areas. Moving forward, improvements in the structure and consistency of coaching and job-embedded PD delivery will further enhance the impact of this action.

1.5 is focused on supporting teacher quality by ensuring all new teachers receive the mentorship, training, and credentialing support necessary to meet state requirements and build instructional capacity. All new teachers were successfully paired with a designated mentor and participated in a formal induction program, which included coaching, goal setting, and regular reflection aligned to the California Standards for the Teaching Profession. Teachers working under preliminary or provisional credentials completed the required coursework, observations, and documentation necessary to clear their credentials and meet the definition of “highly qualified.” Support was also provided for teachers pursuing additional authorizations or credentials aligned to their assignments (e.g., English Learner authorizations, Special Education).

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

1.3 We experienced a material increase in spending for this action due to the acquisition of additional programs/materials/resources to meet the needs of students under the Supplemental and Learning Recovery Emergency Block Grant and Supplemental Resource needs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

1.1 - The implementation of differentiated instruction, designed to provide Tier 2 and Tier 3 interventions and small group extensions, has shown moderate to targeted effectiveness in progressing toward the goal of supporting student growth, with varied impact across grade levels, subjects, and student subgroups.

Evidence of Effectiveness: Overall Academic Gains: School-wide ELA met/exceeded increased by +4.86% and Math met/exceeded by +6%, indicating that the differentiated strategies, when implemented consistently, positively impacted student achievement. School-wide ELA proficiency rose by +3%; Spanish proficiency by +1%.

Subgroup Growth: English Learners: +5.96% met/exceeded, Socioeconomically Disadvantaged: +8.12%, Students with Disabilities: +0.49%. These gains demonstrate that differentiated support systems—including MTSS interventions and small group instruction—are having a positive and equitable impact, especially on historically underserved populations. Individual Grade-Level Successes: Notable growth in ELA met/exceed in: 4th grade (+15.37%), 5th grade (+11.49%), 7th grade (+10.69%). Substantial English growth target progress in: 3rd grade (+14%), 8th grade (+24%) Spanish proficiency gains in: 3rd grade (+17%) 7th grade (+11%) 8th grade (+17%) Reduction in low-performing students in ELA and Math in multiple grades (e.g., 3rd ELA: +15%, 8th Spanish: +21%, 7th Math: +6%). These outcomes indicate that when MTSS and small-group instruction were applied with fidelity, students demonstrated meaningful growth and progress toward grade-level proficiency.

Areas of Ineffectiveness or Inconsistent Impact: Inconsistent Growth in Early and Middle Grades: Several grades showed declines or limited progress in meeting growth targets: English: Grades 4 (-7%), 5 (-4%), 6 (-1%) Math: Grades 4 (-34%), 5 (-21%), 6 (-40%), 7 (-41%), 8 (-28%), Spanish: Grades 2 (-22%), 4 (-1%), 5 (-16%), 6 (-6%). These declines suggest gaps in instructional delivery, especially in ensuring timely Tier 2/3 support and in sustaining intervention throughout the year. Challenges with Reducing Low-Performing Students: Despite some gains, several grades experienced increases or minimal changes in the percentage of students remaining in the “low” range, especially in Spanish Language Arts and Math in grades 2–6. This indicates a need for earlier intervention, stronger Tier 1 core instruction, and more consistent progress monitoring in those grade levels.

1.2 The overall +5.96% increase in English Learners meeting or exceeding standards indicates that targeted strategies—such as EL intersession camps, and before and after school interventions have had a moderate positive academic impact. However, before- and after-school interventions were less effective due to low student attendance, limiting the reach and consistency of support for the students most in need. While students who did attend showed individual progress, the overall impact was diminished by barriers such as transportation issues, scheduling conflicts, and a lack of student engagement outside regular school hours. Despite these challenges, the increase in academic performance among English Learners suggests that in-school supports and targeted intersession programming were key drivers of success, underscoring the importance of structured, school-day or break-period interventions in the future.

1.3 Professional development needs emerged as a key challenge, especially for newer curriculum tools like UFLI and Open Up, where some teachers required additional support for effective implementation. Student engagement with digital platforms outside of core instruction varied significantly, impacting the consistency of progress monitoring and practice time. The integration of multiple new curricula and tools created barriers for some teachers as they navigated between materials and platforms. Students overall demonstrated positive academic growth, as reflected in a +6% increase in math proficiency, a +3% increase in English, and increased percentages of students meeting or exceeding standards in several grades and subgroups. Subgroups such as English Learners (+5.96%) and Socioeconomically Disadvantaged students (+8.12%) showed notable gains, suggesting that the available materials and digital supports contributed to closing achievement gaps. The use of programs like ST Math and RAZ helped reinforce skills and provided personalized pacing for students who needed extra support or extension.

1.4 The professional development provided during the school year is moderately effective in supporting progress toward the academic goal, particularly in improving Tier 1 and Tier 2 instruction through differentiation. Academic gains across key subgroups, including English

Learners (+5.96%), Students with Disabilities (+.49%), and Socioeconomically Disadvantaged students (+8.12%), indicate improved access to effective instructional strategies. Overall schoolwide proficiency growth in English (+3%) and Math (+6%), suggesting that classroom instruction, bolstered by PD, became more responsive to student needs. Professional development in programs such as Open Up Math, GLAD, and UFLI supported the increased use of structured and standards-aligned Tier 1 practices. However, the effectiveness was limited in some areas, as implementation varied due to inconsistent participation. Certain grade levels (e.g., 3rd grade in ELA and multiple middle school math grades) showed declines or stagnant growth, indicating that differentiated instruction and intervention strategies may not yet be fully embedded or equitably applied. Teachers indicated a need for more sustained coaching and focused collaborative planning on how to translate professional development into daily practice effectively.

1.5 has been effective in supporting progress toward the overall academic goal by ensuring that all new teachers meet the state's standards for being highly qualified and are supported through structured induction and mentoring. The successful completion of induction programs and credentialing requirements by 100% of new teachers contributed to: increased instructional consistency across classrooms, greater teacher retention and stability, reduced disruptions to student learning, and improved teacher confidence and competence, particularly in applying foundational instructional practices and managing diverse classroom needs.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

1.1 Strengthen Cross-Grade Vertical Alignment. Data shows growth in some grades and sharp declines in adjacent ones, particularly in Spanish and Math. This inconsistency suggests a disconnect between grade-level expectations and instructional transitions. Collaborative planning across grade levels to align skills, vocabulary, and assessment practices. More Intentional Use of Formative Assessment to Adjust Instruction, as some grades may be responding late to learning gaps, as shown by drops in growth target achievement. Embedding formative checks more regularly in classrooms and using them to adjust groups and strategies in real time, and refining MTSS Implementation Fidelity. MTSS is in place, but outcomes suggest inconsistent application of the problem-solving cycle (identify, intervene, monitor, adjust). Targeted Focus on 2nd Grade Across Content Areas. 2nd grade repeatedly shows negative trends across English, Spanish, and Math, indicating a critical need for focused support. Early literacy and numeracy interventions tailored to 2nd-grade development. Observation and support cycles to identify instructional barriers specific to this grade level.

1.2 The metrics and target outcomes will remain unchanged, but actions will be refined to increase access, participation, and alignment with student needs, particularly for Long-Term and at-risk English Learners. Based on reflection and analysis of the previous year's implementation, several adjustments have been made to improve the effectiveness of supplemental services for English Learners. To address the challenge of low attendance in before- and after-school programs, a greater emphasis will be placed on embedding targeted interventions into the regular school day, including small-group support during designated English Language Development (ELD) blocks and academic periods. Additionally, transportation limitations will be addressed by piloting a hybrid intervention model that includes virtual tutoring and in-school lunch or advisory interventions. To strengthen student and family engagement, the school will increase outreach efforts through bilingual communication, personalized invitations, and family info nights to explain program benefits. The more robust use of formative assessments and ELlevation data will facilitate the timely identification of students in need and ensure appropriate placement and follow-up.

1.3 Based on reflections from the 2023–24 implementation, several changes have been made to improve alignment, impact, and sustainability of instructional materials and technology supports. The planned actions have been refined to prioritize a smaller set of core programs (e.g., UFLI, ST Math, Benchmark) with structured implementation support. A new focus on professional development and coaching will be introduced to support teachers in integrating key platforms and utilizing data effectively. Family engagement resources and technology access efforts will be expanded to ensure equitable use of digital tools at home, such as parent guides or short videos, to build home-school connections. While the overall goal and metrics remain consistent, monitoring efforts will now include program usage reports and formative assessment data to more effectively evaluate implementation fidelity and student growth. These adjustments aim to optimize the return on investment in materials and technology by enhancing consistency, relevance, and instructional effectiveness.

1.4 Reflecting on the implementation and impact of Action 4, the plan now places a stronger emphasis on coaching and focused collaborative planning, incorporating site-based instructional coaching and allocating release time for grade-level or content-area teams. The metrics will expand to include implementation surveys and usage of key instructional strategies identified during training, providing a clearer link between PD and classroom impact. Target outcomes have been refined to emphasize student growth in grade levels and subgroups that have shown minimal or negative change, ensuring professional development aligns with areas of greatest instructional need.

1.5 The current approach of providing induction support, mentorship, and assistance with credentialing has proven effective in ensuring that all new teachers are well-supported and meet the requirements to be considered highly qualified. This action will continue as originally designed to maintain a strong foundation for teacher quality and instructional consistency.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Differentiated Instruction	Differentiated Instruction provides students with Tier 2 or Tier 3 intervention OR small group extension opportunities. These services will be monitored through a MTSS process and provide timely and effective differentiated instructional practices that monitor progress, inform teaching practices, and ensure student growth. These services can be provided in the regular classroom, in pull-out programs within the school day, during intersession, and/or over the summer.	\$736,021.00	Yes
1.2	Supplemental English Learner Services/Programs	Supplemental materials and services for English Learners targeting, but not limited to, Long Term or At-Risk Of Long Term status	\$18,540.00	No

Action #	Title	Description	Total Funds	Contributing
1.3	Materials and Technology to Support Tier I instruction	Programs, materials, and technology to support classroom instruction, Tier I, universal design and differentiation. Students will have access to a wide-range of materials that can best fit their learning needs and provide opportunities for growth.	\$171,105.00	Yes
1.4	Professional Development	Teachers and staff will participate in professional development to meet the needs identified through schoolwide and classroom data. Professional development may be delivered in many ways, including but not limited to: conferences, coaching, consultants, job-embedded experiences, and supporting teacher individual professional development/planning time. There will be a focus on Tier 1 and Tier 2 instruction to support differentiation in the classroom.	\$170,000.00	Yes
1.5	Teacher Quality	Supporting teachers to complete induction programs and programs to qualify for additional credentialing required for the assigned teaching position.	\$20,500.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Enhance the social-emotional well-being of students and reduce negative student behaviors through comprehensive support systems and proactive interventions.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
 Priority 3: Parental Involvement (Engagement)
 Priority 5: Pupil Engagement (Engagement)
 Priority 6: School Climate (Engagement)
 Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

This goal was developed based on data and feedback from educational partners. Our community has noticed an increase in students struggling with social-emotional and behavioral challenges since the onset of the COVID crisis. These challenges impact not only the student but the teacher, class, and family. Investing in the social emotional development and well being of our students fosters their capacity for empathy and respect; understanding and sharing the feelings of another is crucial for valuing diverse perspectives, effective collaboration, problem solving and leading change. We have learned that behavior is often a product of a student struggling emotionally and the two can't be addressed in isolation.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

2.1 UPCS made deliberate efforts to enhance the social-emotional well-being of students and reduce negative behaviors through a layered system of supports. Action 1 was implemented as planned, with the following core components: All students had access to a school counselor and psychologist, ensuring availability of tiered supports. A formalized referral system was utilized to connect students with external mental health services. Social skills groups, coaching, mentoring, and restorative practices were introduced and delivered across grade levels, based on identified student needs. Teachers received curriculum, professional development and materials to support SEL instruction and behavior reinforcement in the classroom. Staff implemented relationship inventories three times across the year to monitor relational trust and emotional climate in the classroom. Substantive implementation was strong in ensuring access and consistency of services; however, the following challenges were noted: Social skills groups and counseling were limited this year. There was a need for deeper integration of restorative practices and positive behavior interventions into everyday classroom management.

2.2 UPCS implemented a professional development initiative focused on Social Emotional Learning (SEL) and behavior support, aimed at equipping educators, counselors, staff, and administrators with the knowledge and strategies necessary to nurture students' emotional well-being and encourage positive behavior. The implementation included: Schoolwide professional development on trauma informed practices, SEL frameworks and behavioral interventions. Student engagement sessions to introduce foundational concepts of restorative approaches (e.g., community circles, repairing harm). Collaborative time for staff to reflect and align on strategies to improve classroom culture and student relationships. There were no major deviations from the planned action, although some challenges were encountered: While all staff participated in initial trainings, ongoing coaching and follow-up support varied by grade level, leading to inconsistent application. Training in restorative practices was less extensive than planned, limiting teachers' ability to fully engage in restorative approaches. Successes included: Teachers reported greater confidence in addressing student behavior proactively and empathetically. Staff were increasingly willing to use restorative conversations and community circles, especially in upper elementary and middle grades. The implementation of the Relationship Inventory three times throughout the year helped identify shifts in student-teacher rapport and guided timely interventions.

2.3 UPCS implemented behavior tracking software as part of a broader effort to build an effective Multi-Tiered System of Support (MTSS) for social-emotional learning (SEL) and behavior. The software was designed to give teachers, administrators, and support staff a consistent tool to log student behavior, identify trends, and better align interventions across tiers of support. The behavior tracking system was piloted schoolwide in the Spring, and staff received initial training on how to input and review data. Office referrals and major behavior incidents were entered into the system, providing centralized documentation and improving communication between classroom staff and administrators. Behavior data was used in MTSS team meetings to identify students in need of Tier 2 and Tier 3 supports. Referral trends helped guide the deployment of counselors and SEL supports. Challenges included: Inconsistent usage among some staff, especially with a later in the year pilot and due to varying comfort levels with the technology and uncertainty about expectations. Limited time for reflection and data analysis in collaborative meetings meant that data wasn't always used proactively to guide supports. Successes included: Clearer documentation led to more targeted interventions and supports for students with repeated behavioral challenges. The software improved communication and follow-through on student behavior plans between general education and support staff.

2.4 In alignment with Goal 2—to enhance students’ social-emotional well-being and reduce negative behaviors—UPCS implemented a comprehensive strategy to engage parents through targeted education on social-emotional learning (SEL) and behavioral development. The action plan included workshops, newsletters, website content, and informal “coffee chat” events. All planned actions were implemented successfully. Workshops were held throughout the year on topics such as emotional regulation, positive discipline, understanding trauma, and building routines at home. Monthly newsletters included SEL tips, parenting strategies, and schoolwide behavior expectations. The school website was updated regularly with resources and community mental health links. Coffee chats provided a more informal setting for school leaders and counselors to engage families, answer questions, and share strategies. Challenges experienced: Varying attendance at workshops and coffee chats made it difficult to consistently reach all families. Some families preferred virtual options, while others preferred in-person formats, creating a need for hybrid access and recordings of workshops. A few parents indicated that while the information was helpful, they still felt unequipped to address more serious or persistent behavioral issues at home. Successes: Parent participation and feedback at events indicated strong interest and appreciation for the support. Increased two-way communication between school staff and families built stronger relationships and a greater sense of collaboration. Teachers reported improved consistency between home and school expectations for students whose families engaged in the SEL sessions.

2.5 Although Action 3 was included in the Local Control and Accountability Plan (LCAP) to support Goal 2, enhancing the social-emotional well-being of students and reducing negative behaviors through proactive interventions, this action was not implemented during the school year. The planned professional development was intended to equip educators with a deeper understanding of how poverty-related trauma and adversity manifest in student behavior. The training was to include strategies for building supportive relationships, de-escalation techniques, and trauma-informed responses, particularly for students experiencing economic hardship. Competing demands on professional development time due to trainings in other academic or compliance areas. While this specific action was not implemented, other related SEL and behavior-focused trainings were held, and teachers did report some positive impact from them. However, these did not directly address poverty-informed strategies.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

We spent a significantly larger amount on Action 2.1 than budgeted because we hired a certificated teacher to support students socially, emotionally, and behaviorally throughout the day, under the guidance of the school counselor and school psychologist. We spent less on Action 2.3 because we didn't pilot the Behavior Tracking System until after the middle of the school year. We did not spend anything toward Action 2.5 because we were unable to find a professional development opportunity with such a tight focus.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

2.1 This action demonstrated moderate effectiveness in moving toward Goal 2: Positive outcomes included: Suspensions improved significantly, with a reduction of 12 unduplicated incidents and an improvement from red to green on the CA Dashboard. Expulsions remained at zero, indicating strong prevention and support practices. Students in grades 6–8 showed slight improvements in perceived fairness of discipline (+1%) and respect toward teachers (+1%). Areas of concern remained: Elementary student feedback in grades 3–5 indicated a decline in classroom behavior (-4%) and respect for teachers (-7%). Only a +3% increase was noted in students’ ability to self-regulate when upset, and adult connection when upset declined by 3%, pointing to a gap in perceived support. Mental health percentile

ranking for grades 3–5 remained relatively low at 35th percentile, indicating a continuing need for SEL support. These mixed results show that while behavior outcomes have improved (e.g., suspensions, referrals), student perceptions of emotional support and peer behavior, particularly in younger grades, need more targeted attention.

2.2 This action has shown moderate to strong effectiveness in advancing progress toward Goal 2. Strengths: Improvement in discipline-related metrics: Suspensions decreased by 12 incidents, and the school moved from red to green on the CA Dashboard, indicating meaningful behavior improvements. Students in grades 6–8 noted a slight increase in perceived fairness and respect in discipline practices (+1%). Staff feedback indicated increased use of SEL language and restorative tools in daily interactions. Areas still needing attention: Grades 3–5 saw a decline in student perceptions of behavior and teacher respect (-4% and -7%, respectively). Emotional and mental health ratings for grades 3–5 remained at the 35th percentile, indicating a gap in emotional support and coping strategies among younger students. Some staff expressed the need for deeper, grade-specific training and modeling of restorative practices, particularly at the elementary level. Overall, the professional development laid a strong foundation but needs to be expanded and refined for greater and more consistent impact across grade levels.

2.3 The implementation of the behavior tracking software was minimally effective in supporting progress toward the goal of enhancing student social-emotional well-being and reducing negative behaviors due to the late pilot date this year. However, effective aspects are noted such as, enabled data-informed decisions in identifying students for Tier 2/3 supports, schoolwide visibility on behavior trends, helping staff and administrators align around shared needs, and supported more structured MTSS conversations, particularly around high-need students. Limitations include: inconsistent use of the platform limited the reliability of some data, underutilization of behavior trend reports meant that patterns were sometimes identified too late for preventative interventions.

2.4 This action was effective in supporting Goal 2 and made meaningful progress toward strengthening the home-school partnership around SEL and behavior. Positive outcomes included: Families were more informed and engaged in supporting students' emotional and behavioral development. The outreach reinforced the message that student behavior is a shared responsibility, and that emotional health is foundational to learning. Limitations: Reach was uneven, with some families participating frequently and others not at all. Limited time during events meant only surface-level exploration of complex topics, requiring additional support for high-needs families.

2.5 Since this action was not implemented, it has not contributed to measurable progress toward the goal. Despite improvements in suspension rates and continued restorative practice efforts, the absence of targeted PD on poverty-related behavioral challenges represents a missed opportunity to deepen staff capacity and address root causes of student behavior more effectively. The lack of this training likely impacted the ability of educators to interpret and respond appropriately to students whose behavior may be driven by housing instability, food insecurity, or chronic stress associated with poverty. Given that local data show a 15% increase in suspensions among socio-economically disadvantaged students, this type of professional development remains critically relevant and necessary.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

2.1 Based on reflection and data analysis, the following adjustments will be made: Strengthen Tier 1 SEL Instruction across all grade levels by embedding explicit emotional regulation, empathy-building, and conflict-resolution lessons into the regular curriculum, enhance adult-

student connections, especially in elementary grades, by establishing regular check-in routines and increasing presence of support staff in classrooms and common areas, deepen implementation of restorative practices by providing more hands-on training and classroom modeling for teachers and support staff, engage families in SEL strategies by offering parent workshops on emotional regulation, behavior supports, and how to foster positive mental health at home, and additional metrics will be added to measure student connectedness to adults at school more closely (e.g., school climate survey questions).

2.2 Based on reflections and data, the goal and major outcomes remain unchanged, but action steps will be expanded to include: grade-span-specific PD focused on restorative practices and SEL integration, more consistent student-facing instruction and modeling of restorative language and processes, and implementing consistent classroom practice observations and coaching for fidelity of implementation. These refinements aim to sustain behavior gains while deepening the emotional and relational development of students, particularly in elementary grades.

2.3 Reflecting on this year's implementation, no changes will be made to the goal itself, but refinements will be made to action steps and expectations. All staff will receive a training in using the tracking software effectively and consistently. Monthly review protocols will be embedded in MTSS or staff meetings to ensure data is driving responsive supports. Evaluating the effectiveness by monitoring percentage of staff consistently entering data, timeliness of interventions following Tier 2 identification, and correlation between data and SEL support access. These changes aim to move from reactive to proactive behavior support by leveraging the full potential of the behavior tracking system.

2.4 Based on reflections and outcomes, no changes will be made to the goal or metrics for this action, as the approach is aligned with student needs and educational partner priorities. However, minor adjustments will enhance implementation: Greater emphasis on tracking family participation to ensure equity of access. Increased collaboration with counselors to co-facilitate workshops and better align content with student needs. Explore partnerships with local organizations to co-host or sponsor family SEL events, increasing relevance and reach. expand hybrid offerings (in-person and virtual) to meet the varied needs of families. Offer topic-specific series (e.g., 3-part parenting strategies or adolescent mental health series) to allow deeper learning over time. Collect post-event surveys to gather family feedback and tailor future topics accordingly. Develop family toolkits with ready-to-use resources and activities aligned with workshop content. These refinements aim to deepen the effectiveness of family engagement in supporting students' emotional and behavioral success.

2.5 As a result of reflections on the year's implementation, this action will be carried over into the coming year with renewed urgency. While the goal, metrics, and outcomes will remain the same, the implementation timeline and logistics will be adjusted to ensure this PD is delivered effectively. Changes include: scheduling the training during dedicated PD days early in the school year, securing consultants or trainers in advance to ensure availability, and embedding the content within a wider MTSS and SEL framework, so it complements ongoing schoolwide initiatives. Implementing this action in the upcoming year is essential to addressing equity gaps in behavior response and improving outcomes for students affected by poverty.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Access to Social Emotional and Behavioral Supports	Ensure all students have access to a school counselor and additional supports from the psychologist. Implement a referral system for students needing external mental health services. Additionally, provide social skills groups, coaching, mentoring, and restorative practices. Provide teachers and staff with the necessary curriculum and materials to support positive SEL and behaviors.	\$202,576.00	Yes
2.2	Professional Development in SEL/Behavior	Professional development in Social Emotional Learning and behavior focusing on equipping educators, counselors, staff, and administration with the skills and knowledge needed to support students' emotional and social development and positive behaviors. Training of teachers, staff, and students in restorative practices.	\$50,000.00	Yes
2.3	Behavior Tracking System	Implement a behavior tracking software for staff, teachers, and admin to track behaviors in an effort to better understand the types of student behaviors experienced across the campus and to inform the implementation of a MTSS system for SEL and Behavior.	\$2,000.00	Yes
2.4	Parent Education to support students SEL and Behavior	Provide parent education through workshops, newsletters, website, and coffee chats focused on social emotional and behavioral development of children.	\$3,000.00	No
2.5	Professional Development directed toward understanding challenging behaviors in students in poverty	Professional Development directed toward understanding and addressing challenging behaviors in students in poverty.	\$1,000.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Foster a positive and inclusive school culture that motivates all students and staff, promoting a strong sense of belonging and community.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
 Priority 3: Parental Involvement (Engagement)
 Priority 5: Pupil Engagement (Engagement)
 Priority 6: School Climate (Engagement)
 Priority 7: Course Access (Conditions of Learning)
 Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Reflective of the phrase "it takes a village," UPCS is committed to working as a collaborative community in partnership with students and their families. Through strong two-way communication and engagement that supports our families and students, we leverage our multiple perspectives and collective genius, deepen our shared commitment and develop better strategies and solutions that support the academic and social emotional success and wellbeing of every student. The importance of student motivation plays an integral part in their success. UPCS is committed to offering students a broad course of study where they can participate in activities beyond the core academics. Teachers, staff, and administrators must have collective efficacy and shared decision making to work as an effective team.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

3.1 UPCS implemented eight parent education nights designed to build stronger home-school connections and equip families with strategies to support their children's academic and emotional development. These sessions aimed to increase parent knowledge, improve engagement, and foster a greater sense of community among families. All planned parent education events were successfully conducted, and outreach to families remained a focus throughout the year. No major deviations occurred in the implementation of this action. Sessions were offered in both English and Spanish, and topics included academic support at home, mental health awareness, digital literacy, and fostering student motivation. A key challenge was inconsistent attendance. While some sessions were well attended, others had limited participation, possibly due to scheduling conflicts, work obligations, or lack of clarity on session relevance. Despite these challenges, family survey data remained strong, indicating that families who engaged with the school found the experiences meaningful and supportive.

3.2 UPCS implemented Action 2 by establishing a representative schoolwide Leadership Team composed of teacher leaders from each grade band or department, administrators, and support staff. This team met regularly to plan and implement schoolwide initiatives related to academic programs, student behavior and well-being, and school culture. The planned structure and timeline of implementation were largely followed, and the Leadership Team played a role in guiding three key schoolwide decisions, affirming its influence on collaborative planning and shared leadership. The team also reviewed data, coordinated with site goals, and provided feedback loops to and from their colleagues. A key success was the creation of an inclusive space for staff voices, allowing for more thoughtful planning and ownership of initiatives. However, a challenge emerged with some variability in communication structures, which may have limited the broader staff's awareness or engagement with decisions being made.

3.3 UPCS successfully implemented stipends for dual language teachers to acknowledge the additional workload associated with teaching in two languages, developing dual-language materials, and maintaining academic rigor in both English and Spanish. Bilingual teachers also received an additional stipend for translating school documents, supporting communication with families, and ensuring access to school-wide information for Spanish-speaking households. The planned implementation was carried out as intended, with stipends distributed in

accordance with policy and timelines. There were no major deviations from the original plan. The stipends provided were a tangible recognition of the extra responsibilities these educators carry, contributing to teacher morale and retention within the program. A notable success was the increased capacity for family communication and support; bilingual staff translated documents and served as essential bridges between school and home, especially in navigating school events, notices, and parent engagement nights.

3.4 UPCS implemented enrichment learning opportunities for students in areas such as music, cultural studies, gardening, and Spanish enrichment through the MEG program for students in the language enrichment pathway. These enrichment classes were taught by credentialed teachers, while classroom teachers used this time for collaborative planning, data analysis, and instructional refinement. The implementation generally aligned with the planned actions. Students were provided with consistent access to enrichment courses, contributing to a broader course of study and supporting the goal of nurturing a positive school culture. Language Enrichment students received targeted enrichment in Spanish, reinforcing biliteracy and cultural appreciation. A notable success was the increased engagement of students in the enrichment activities, particularly in younger grades, where hands-on learning such as gardening and music boosted enthusiasm and participation. The time also proved valuable for teachers to engage in professional collaboration without needing to pull away from instructional time.

3.5 UPCS offered a variety of after-school enrichment opportunities designed to increase student engagement and foster a stronger sense of belonging. These activities included sports, STEM, art, music, service clubs, and other interest-based programs. Students also had the opportunity to attend extended care at the Boys and Girls Club, with transportation provided to ensure access. The program was implemented largely as planned, with multiple after-school enrichment sessions held throughout the year. These offerings provided students with expanded learning and creative outlets beyond the traditional school day. The Boys and Girls Club partnership proved valuable for working families, giving students a safe environment after school. However, some challenges emerged in implementation: Student participation varied across grade levels, with stronger turnout in younger grades and fewer middle school students participating regularly, social-emotional and behavioral difficulties arose in the less structured Boys and Girls Club and carried over into the school environment, and staffing and scheduling after-school facilitators remained a challenge.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Action 3.1 Was less than budgeted because we ended up providing more of these nights ourselves rather than highering outside agencies.
Action 3.4 Was higher than budgeted due to increased staffing and programs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

3.1 This action showed positive effectiveness, particularly in maintaining strong family-school relationships. The data shows that family engagement and perceptions of school culture continued to exceed the California median, which reflects positively on the school's consistent outreach and support efforts. However, the lack of improvement in family relationship and culture scores (despite high baseline performance) suggests a plateau and a need to expand engagement strategies to reach a broader range of families, particularly those who may be underrepresented or facing barriers to participation. Additionally, student and staff scores on culture and relationships indicate a disconnect

between family perceptions and those of internal stakeholders, underscoring a need to better align whole-community experiences of connectedness and inclusivity.

3.2 This action demonstrated moderate effectiveness in contributing to the overall goal of fostering a positive and inclusive school culture. The Leadership Team's involvement in three schoolwide decisions reflected a meaningful shift toward shared decision-making and collective efficacy, both important to staff culture. Despite this, staff perception data showed declines in all major indicators: Engagement (-30%-ile), Relationships (-64%-ile), and Culture (-27%-ile). This indicates a disconnect between leadership structures and staff experience, suggesting that while structures were in place, more deliberate action is needed to ensure staff feel truly included, valued, and supported. The student data showed mixed trends: Upper grades (6–8) saw slight gains in Culture (+4%-ile) and Belonging (+7%-ile), which may reflect early positive impacts of collaborative planning. However, grades 3–5 saw declines in Relationships (-18%-ile) and Culture (-19%-ile), indicating uneven effectiveness across grade spans.

3.3 This action has been effective in supporting the overall school culture goal, especially in strengthening the sense of belonging and inclusivity for Spanish-speaking families. The family engagement percentile data remained strong or improved slightly, continuing to exceed the California median, indicating that families feel connected and informed. The support for bilingual communication likely contributed to increased attendance at parent education nights and stronger two-way communication efforts. Though staff relationship and culture scores declined overall, dual language teachers expressed that the stipends demonstrated appreciation for their unique roles—important for staff morale and retention in a high-demand specialty. The student belonging scores, particularly for 3–5 grades (+16%-ile), may partially reflect the impact of more culturally and linguistically responsive communication and instruction.

3.4 This action has shown moderate to strong effectiveness in contributing to Goal 3 by enhancing students' sense of belonging, motivation, and cultural identity, especially evident in: Belonging data, where both 3–5 (+16%-ile) and 6–8 grade students (+7%-ile) showed positive percentile shifts, meeting or exceeding the California median. Engagement increases in 3–5 grade (+15%-ile) suggest that access to engaging and creative learning opportunities supported student motivation. Collaborative planning time for teachers contributed to improved Tier I instruction and allowed time for data review, helping align academic instruction with student needs. However, while enrichment positively impacted culture and belonging, the staff culture and relationships metrics remained low, suggesting this action's benefits were more student-facing than staff-facing.

3.5 This action had mixed effectiveness in advancing Goal 3. On one hand, it contributed to increased student belonging (+16 percentile in grades 3–5 and +7 percentile in grades 6–8) and helped maintain strong family engagement metrics, which exceeded the state median. These outcomes suggest that expanded opportunities for students to explore interests and access extended care supported some positive aspects of school culture. However, persistent issues in middle school engagement (-16%-ile) and relationships (-10%-ile) indicate that the current programming did not fully address the needs of older students. Additionally, the behavioral concerns linked to the Boys and Girls Club setting created unintended impacts on campus, complicating efforts to foster a consistently positive and inclusive culture.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

3.1 No changes will be made to the overall goal, metrics, or target outcomes. However, based on reflections, parent education nights will be adjusted to include more interactive and family-centered formats. A focus on increasing participation from underrepresented family groups will guide planning. Coordinate family nights with other school events (e.g., performances, showcases, or conferences) to boost attendance. Strengthen two-way communication tools (such as feedback loops, short family surveys after events) to ensure relevance and improve planning. The use of short engagement surveys after each session will be implemented to track effectiveness and inform responsive adjustments throughout the year. Include more student-led components in family engagement nights to foster connection across generations and showcase student voice. These adjustments aim to increase the impact of family engagement on student belonging and school culture, while reinforcing the school's commitment to being a collaborative "village" that supports every child's success. Diversify modes of delivery for parent engagement (e.g., hybrid events, recorded sessions, or family podcast series) to improve accessibility and reach.

3.2 No changes will be made to the overall goal, metrics, or target outcomes, as they remain relevant and aligned with the school's vision. However, as a result of reflection on implementation: Leadership Team structures will be strengthened, including clearer agendas, documentation, and feedback loops to staff. A focus area for the team will include improving staff relationships and engagement, as indicated by the data.

3.3 No changes will be made to the goal, metrics, or primary action related to stipends, as the implementation was effective and aligned with UPCS's equity and community-building priorities. We will continue building the dual language program with aligned PD and planning time, so compensation is not the only support offered. An additional survey of dual language and bilingual teachers mid-year to assess their experience and make adjustments to supports.

3.4 As a result of reflections on implementation, no changes will be made to the goal or core action, as enrichment learning and collaborative planning time continue to be aligned with fostering a positive and inclusive culture. Scheduling improvements and recruitment of additional enrichment specialists will be prioritized to ensure consistent delivery across all grade levels. Collaboration logs or reflections may be used to capture how teacher planning time is being used and what instructional improvements result. These adjustments will help ensure that enrichment programs continue to support student motivation, teacher efficacy, and the overall sense of school community.

3.5 Reflections on implementation have led to the following refinements: No major changes will be made to the overall goal or structure of the action. Additional collaboration with the Boys and Girls Club will be prioritized to address behavioral concerns and improve student transitions between settings. Expanded middle school offerings and targeted outreach will be implemented to increase older student participation and motivation. Ongoing monitoring and feedback collection from students, families, and staff will guide continuous improvement of enrichment opportunities and their alignment with school culture goals.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Parent Education Academy	Provide opportunities for parents to learn strategies to support their child's learning and to create a greater sense of school-connectedness for the entire family.	\$5,200.00	Yes
3.2	School Leadership Team	Teacher representatives from each grade band or department, administrators, and other staff will form a team to collaborate on, plan for, and implement various initiatives for the school.	\$7,000.00	No
3.3	Recruit and Retain Dual Teachers	Provide a stipend to all teachers in the dual language program to compensate for the extra work involved in teaching in this program. Bilingual teachers will receive an additional stipend for translating documents.	\$24,482.00	No
3.4	Enrichment Classes/Programs	Credentialed teachers will provide learning opportunities for students in a variety of topics such as music, cultural studies, and gardening. Classroom teachers will be engaged in collaborative planning and data analysis during this time. Students in the language enrichment program will receive enrichment classes in Spanish through the MEG program.	\$206,200.00	Yes
3.5	After School Clubs	Provide opportunities for students to participate in a variety of enrichment activities after school. These activities will include a wide-range of topics including sports, STEM, art, music, service clubs, and more. Students will also have access to extended care at the Boys and Girls Club. Transportation will be provided to the extended care program.	\$460,000.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	Academic Growth for Students in Special Education in the areas of Math and ELA.	Focus Goal

State Priorities addressed by this goal.

Priority 2: State Standards (Conditions of Learning)
 Priority 4: Pupil Achievement (Pupil Outcomes)
 Priority 5: Pupil Engagement (Engagement)
 Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

On the 2022-2023 SBAC students with disabilities scored 26.1% met/exceed in ELA and 13.15% met/exceed in math. This subgroup was the only subgroup to score in "RED" on the SBAC in math. The education of students with disabilities is the responsibility of the general education teacher and the special education staff. This goal will focus on increasing training and tools for both the general education classroom and the special education setting.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

4.1 UPCS assembled a comprehensive special education team composed of highly qualified, credentialed teachers, reinforcing the school's commitment to meeting the needs of students with disabilities. To further enhance services, an additional speech and language pathologist was secured to provide increased support for students requiring speech and language interventions. In a proactive effort to strengthen reading outcomes, UPCS also created a new position dedicated to reading instruction. A staff member was trained in a research-based, specialized reading program and successfully implemented it to meet students' individual reading needs. To support mathematics instruction, the special education teacher participated in a four-day intensive math training. In the resource setting, the Building Fact Fluency Mathematics Toolkit was implemented to help strengthen number sense and math understanding. Instruction was enhanced through increased use of math word problems to build real-life application and problem-solving skills, while math games were introduced to foster student engagement and fluency. The resource room now emphasizes exploration and collaborative discussion, which has encouraged deeper conceptual understanding and more meaningful connections to students' IEP goals. In ELA, the staff utilized a structured, research-based reading program. Staff were trained to implement the program with fidelity to support the achievement of reading goals. Targeted trainings also focused on data collection and goal-aligned reporting, ensuring that instruction and progress monitoring are tightly linked to each student's individualized education plan (IEP). The action as planned was fully implemented, with additional enhancements including professional development, role creation, and targeted instructional strategies.

4.2 - During the 2024–2025 school year, UPCS launched this action with the intent to improve inclusive practices and better support students with disabilities in general education classrooms. Professional development was provided to general education teachers and classroom aides on a variety of topics relevant to inclusive education. Key areas included: Understanding a range of student disabilities and how they present in the classroom. Differentiated instruction and strategies for diverse learners, classroom management techniques tailored to students with IEPs, collaboration and co-planning with special education staff, legal and ethical responsibilities under IDEA and Section 504, and in addition to formal PD sessions, time was set aside for collaborative meetings between general education and special education staff. These sessions aimed to build relationships, align instructional approaches, and promote shared ownership of student outcomes. Implementation occurred as planned, with strong participation from general education teachers, instructional aides, and special education staff. Scheduling collaboration time during contract hours posed some logistical challenges, but leadership worked to integrate this time into existing PLCs and staff meetings.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Action 4.1 came in slightly under budget based on the materials that were acquired.
Action 4.2 came in significantly under budget due to staffing challenges. We will have a concentrated focus on this for 25-26.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

4.1 and 4.2 - The special education team’s focused efforts contributed to measurable, though modest, growth: +0.96% increase in ELA CAASPP scores and +0.49% increase in Math CAASPP scores. While academic growth among students with disabilities remains modest, there is evidence that efforts toward greater inclusion and shared responsibility have laid a stronger foundation for future gains. Qualitative feedback from staff indicated increased awareness of student needs and greater confidence in making accommodations. Staff also reported feeling more connected to the work of the special education team. Perception data from Youth Truth show mixed results: Grades 3–5 reflected strong improvement in engagement (+51%), academic challenge (+18%), and belonging (+9%), suggesting a more supportive and responsive learning environment for younger students. However, grades 6–8 reflected significantly low perception scores in engagement (-77%), academic challenge (-24%), and relationships (-23%), highlighting a continued need for middle school-specific supports and inclusive practices.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

4.1 and 4.2 - Based on the lessons learned from this year’s implementation, professional development will expand professional development to include inclusive classroom walkthroughs, peer observations, and model lessons. Integrate a tiered support system within PD offerings to meet the varying needs of new and veteran staff. Increase the frequency and structure of collaboration time between general education and special education staff, especially at the middle school level. Track and analyze classroom-level implementation of accommodations and modifications to identify areas of strength and need. Additional resources will be reviewed to support middle school engagement and relationships, including mentoring programs or peer-based interventions. A more robust progress monitoring system will be introduced to better track growth in both academic performance and IEP goal progression.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Curriculum and Materials	Purchase curriculum to support targeted instruction in Mathematics in the resource program. Materials to support ELA in resource program. Materials to support teaching/learning in the general education classroom.	\$5,000.00	No

Action #	Title	Description	Total Funds	Contributing
4.2	Professional Development focused on meeting the needs of students with IEPs	Professional development to equip general education teachers and classroom aides to better meet the needs of students with disabilities in general education settings. The trainings will include, but not be limited to the following: Understanding disabilities, differentiated instruction, classroom management, collaboration with special education department, and legal/ethical guidelines. This will also include time for general education teachers to meet with the special education teachers. The goal will be to ensure that all students receive the support they need to succeed academically and socially.	\$3,000.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
5	Student Attendance - good attendance is essential for students to succeed both academically and in social emotional growth and development.	Focus Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
 Priority 6: School Climate (Engagement)
 Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

UPCS has struggled with attendance challenges since we reopened after COVID school closures. Our average daily attendance went from 96% prior to March 13, 2020 to 93.8% currently. In 19-20 we reported 65 students as chronically absent and currently we have 122. Research supports the connection between attendance and student success.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
5.1	Increase the rate of Average Daily Attendance	ADA - 93.8%	ADA - 94.6%		ADA - 95%	Increase of .8%
5.2	Reduce the number of students chronically absent	Number of students identified as Chronically Absent - 122 students	Number of students identified as Chronically Absent - 115 students or 15.17%		Reduce the number of students chronically absent by 35% (80 students)	Improved by 7 students/ 6% improvement from the 23-24 school year, which was 16.58%

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Action 5.1 Parent Education - Successfully held a Coffee with the Directors focused on good attendance habits. We also incorporated attendance into many other parent education opportunities, focusing on various topics, and regularly included attendance articles in the weekly bulletin.

Action 5.2 MTSS development - Due to staffing challenges that we suffered at the beginning of the year, the implementation was stunted. Due to these challenges, we were unable to develop the multi-tiered system of support fully. We were able to send the school counselor and another member of the attendance team to the CASCWA conference, where they gathered information, resources, and strategies to support student attendance.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Action 5.1 - We budgeted \$2,000 and we spent \$144. The parent education consisted of a topic discussion at Coffee with the Directors and did not hold an in-depth parent education workshop.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Our metrics indicate that we did experience some success toward our goal. The MTSS group met regularly to review student data, communicate with parents, and consult with students as needed. We included strategies for good attendance multiple times throughout the year through the parent portal and held a "Coffee with the Directors" session, specifically focused on attendance.

Metric 5.1 ADA 94.6%

Metric 5.2 Chronic Absenteeism improved by 6%

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 5.2 We would like to start the year off by having supportive goals setting conversations with students and parents who struggled with maintaining good attendance throughout the year. We hope that by establishing a relationship with a fresh slate we will be build trust. We will finalize our improved tiered approach for engagement and the intervention strategies list for teachers.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
5.1	Parent Education focused on regular school attendance	Provide information to parents regarding the importance of attendance through regular newsletters and school events.	\$400.00	No
5.2	MTSS Structure for Attendance	Create a tiered system to support attendance including incentives for good attendance and improvements in attendance, training, and supplies.	\$3,000.00	No

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Differentiated Instruction</p> <p>Need: Baseline data, as seen in metrics 1.1, 1.2, 1.3, 1.4, and 1.9 for this goal, provide evidence that we have a disproportionate percentage of students in our unduplicated subgroups that are working below grade level benchmarks.</p>	English learners and low income students are disproportionately represented among students scoring below grade level on state and local assessments. They require additional support beyond the regular class day in order to accelerate their progress toward meeting standard(s). The data also shows that students, not included in these two targeted sub-groups, are equally in need of these additional resources and services.	<p>Metric 1.1 - SBAC State Testing - ELA</p> <p>Metric 1.2 - Local Assessments - ELA</p> <p>Metric 1.3 - SBAC State Testing - Math</p> <p>Metric 1.4 - Local Assessments - Math</p> <p>Metric 1.9 - Local Assessments - ELA/Math</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide Schoolwide		
1.3	Action: Materials and Technology to Support Tier I instruction Need: Baseline data, as seen in metrics 1.1, 1.2, 1.3, 1.4, and 1.9 for this goal, provide evidence that we have a disproportionate percentage of students in our unduplicated subgroups that are working below grade level benchmarks. Scope: LEA-wide Schoolwide	English learners and low income students are disproportionately represented among students scoring below grade level on state and local assessments. They require additional support beyond the regular class day in order to accelerate their progress toward meeting standard(s). The data also shows that students, not included in these two targeted sub-groups, are equally in need of these additional resources and services.	Metric 1.1 - SBAC State Testing - ELA Metric 1.2 - Local Assessments - ELA Metric 1.3 - SBAC State Testing - Math Metric 1.4 - Local Assessments - Math Metric 1.9 - Local Assessments - ELA/Math
1.4	Action: Professional Development Need: Students working below grade level in reading and math. Scope: LEA-wide Schoolwide	The review of baseline data reveals that students across the school could benefit from teachers having access to research based, highly effective training in instructional strategies to meet students needs.	1.1 through 1.4 and 1.9 SBAC Math and ELA, Local ELA and Math Assessments.
2.1	Action: Access to Social Emotional and Behavioral Supports	Although our unduplicated pupils have some unique challenges with mental and behavioral health we have seen a big increase, schoolwide, with all students since COVID.	2.1 Youth Truth Data 2.2 Behavioral Data

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Need: Our unduplicated pupils are burdened with many unique mental and behavioral health challenges brought on by their individual situations.</p> <p>Scope: LEA-wide Schoolwide</p>		
2.2	<p>Action: Professional Development in SEL/Behavior</p> <p>Need: Our unduplicated pupils are burdened with many unique mental and behavioral health challenges brought on by their situations. Teachers need to have a solid understanding of the challenges and strategies to address them.</p> <p>Scope: LEA-wide Schoolwide</p>	Teachers must address behavioral and mental health challenges across their classrooms. These challenges have become greater since COVID and teachers must continue to perfect their craft in this area.	2.1 Youth Truth Data 2.2 Behavioral Data
2.3	<p>Action: Behavior Tracking System</p> <p>Need: Since COVID we have seen an increase in challenging behaviors with all students and in 22-23 we noted that our low-socioeconomic students had the highest occurrence of suspension.</p>	A system of data collection will provide us with important data that can drive professional development, interventions, and a better understanding of the types of challenges faced by students.	2.2 Behavior Data

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide Schoolwide		
3.1	Action: Parent Education Academy Need: Baseline data, as seen in metrics 1.1, 1.2, 1.3, 1.4, and 1.9 for this goal, provide evidence that we have a disproportionate percentage of students in our unduplicated subgroups that are working below grade level benchmarks. Scope: LEA-wide Schoolwide	Strengthening the home to school relationship and equipping families with the tools to support their child's learning, benefits all students. Parents are an essential piece in the improvement process. There are several parent education actions throughout our LCAP addressing various, specific areas.	Metric 3.2 will hold us accountable to providing multiple opportunities for families to be engaged. We may also see improvement in metrics: Metric 1.1 - SBAC State Testing - ELA Metric 1.2 - Local Assessments - ELA Metric 1.3 - SBAC State Testing - Math Metric 1.4 - Local Assessments - Math Metric 1.9 - Local Assessments - ELA/Math
3.4	Action: Enrichment Classes/Programs Need: Students from the groups identified as unduplicated often suffer from an opportunity gap from their peers. These students may come from families who have recently arrived in this country, who don't speak English, lack higher education, and/or who are struggling financially and lack resources to provide their children with a wide array of experiences.	By providing a robust enrichment program for all students, our students identified as unduplicated pupils get equal opportunities to engage in a wide range of experiences thus helping to close the opportunity gap.	Metric 3.1 addresses students feelings about engagement, culture, and belonging Metric 3.7 Access to a Broad Course of Study

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide Schoolwide		

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

N/A

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none">• Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2024
